

NOHA MAMDOUH AHMED

Frontend & Full-Stack Developer | AI & SaaS Application Engineering

Location: Kuwait (Open to Relocate) | Phone: +965 65063531 | Email: noha.mamdouh@outlook.com | GitHub: github.com/NohaCode-I

PROFESSIONAL SUMMARY

Frontend and Full-Stack Developer specializing in modern React ecosystems, TypeScript, Python (FastAPI), and Node.js (NestJS) to engineer responsive web applications and AI-augmented SaaS platforms. Meta-certified in Front-End Engineering and UX/UI Design Principles, with a proven portfolio of 5 architected applications backed by 145 passing automated tests across five applications and CI/CD workflows. Skilled in component-driven UI architecture, client-side state management (Zustand), and secure RESTful API integrations with AI workflow orchestration.

TECHNICAL SKILLS

Frontend Engineering:	React (18/19), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite, Zustand, React Router, Framer Motion, Responsive Design, WCAG.
Backend & API Systems:	Python, FastAPI, Node.js, NestJS, Express.js, RESTful APIs, PostgreSQL, Prisma ORM, Redis, Supabase (BaaS).
AI & Intelligent Systems:	OpenAI API, Google Gemini AI, LangGraph, AI Agent Workflows, Prompt Engineering, Contextual Retrieval Patterns.
DevOps, Quality & Security:	Git, GitHub Actions (CI/CD), Docker, Vitest, Jest, Unit and Integration Testing, ESLint, OWASP Security Hardening.
UI/UX & Design Systems:	Figma, Wireframing, UX/UI Design Principles (Meta Certified), Design Tokens.

FEATURED SOFTWARE ENGINEERING PROJECTS

CareerCraft - AI Career Platform and Multi-Agent SaaS	React 19 TypeScript FastAPI Python LangGraph Vitest Docker
Architected a multi-service career optimization platform featuring resume ATS parsing, job matching algorithms, and automated mock interview simulations. Implemented LangGraph-driven agentic workflows in Python/FastAPI to orchestrate candidate evaluations. Enforced automated quality gates with 82 passing Vitest unit and integration tests , trilingual i18n localization (EN, DE, AR across 258 keys), and Docker container verification.	
Supper-Mind - Multilingual AI Wellness and Habit Analytics SaaS	React TypeScript Tailwind CSS Zustand Supabase OpenAI Vitest
Engineered an AI wellness tracking application featuring mood analytics dashboards, habit streak calculation logic, and conversational AI coaching. Integrated Supabase authentication and PostgreSQL persistence with offline fallback mechanisms, validated across 17 automated Vitest tests .	
Fit-Zone - Full-Stack Fitness Management and Booking Platform	React NestJS Prisma ORM PostgreSQL Redis Gemini AI
Developed a full-stack gym management platform with NestJS, Prisma ORM, and PostgreSQL, providing dynamic class scheduling and trainer booking. Implemented secure authentication with JWT tokens, Argon2 password hashing, and role-based access control (RBAC), integrating Redis caching and Gemini AI, backed by 9 automated tests (4 frontend + 5 backend) .	
Mangata and Gallo - Luxury E-Commerce Platform and AI Atelier Concierge	React TypeScript Express.js Prisma PostgreSQL Tailwind CSS
Built a luxury jewelry commerce platform featuring real-time metal variant selectors, diamond carat pricing logic, and an interactive AI gift concierge. Hardened authentication session services and established HTTP security headers (nosniff, strict-origin-when-cross-origin), verified across 19 Vitest tests .	
Aether-Travel - Interactive Destination and Tour Discovery Platform	React TypeScript Vite Tailwind CSS Leaflet Maps Zustand
Created a travel discovery application integrating Leaflet interactive map routing, dynamic tour package filters, and centralized Zustand state management, backed by 18 integration tests .	

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

Meta: Introduction to Front-End Development - Coursera Credential ID: 8AM5SQCXW4Z2

Meta: Programming with JavaScript - Coursera Credential ID: 2KB EK73ZYGPX

Meta: Version Control (Git and GitHub) - Coursera Credential ID: 34D46J5FKM5W

Meta: Principles of UX/UI Design - Coursera Credential ID: V9RRQKLQDHUS

EDUCATION AND LANGUAGES

Bachelor of Arts in English Language and Literature (BA) (1998) - The Higher Institute of Languages, Cairo, Egypt (Grade: Good, 70.80%)

Languages: Arabic (Native), English (Professional Working Proficiency)
