

PROFESSIONAL SUMMARY

Results-driven **Frontend & Full-Stack Web Developer** specializing in building high-performance, responsive web applications and AI-augmented digital platforms. Extensive experience architecting modern applications using **React, TypeScript, Tailwind CSS, Python, FastAPI, and NestJS**. Passionate about clean code architecture, 100% automated test coverage, accessibility (WCAG), and seamless UX design that transforms complex requirements into intuitive digital products.

CORE TECHNICAL SKILLS

Frontend & UI/UX: React 18/19, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Vite, Framer Motion, Zustand.

AI & Intelligent Systems: OpenAI API, Google Gemini AI, LangGraph, Multi-Agent Pipelines, Prompt Engineering, AI Concierge.

Backend & APIs: Python, FastAPI, Node.js, NestJS, Express, PostgreSQL, Prisma ORM, Redis, Supabase, REST APIs.

DevOps & Quality Assurance: Git, GitHub Actions (CI/CD), Docker, Vitest, Jest, Unit/Integration Testing, Web Security (OWASP).

FEATURED ENGINEERING PROJECTS

CareerCraft — AI Career Platform & Multi-Agent Architecture

React • TypeScript • FastAPI • Python • LangGraph • Vitest

Architected an enterprise-grade career advancement platform featuring resume ATS parsing, intelligent job recommendation engines, and dynamic interview simulation. Implemented automated gate validations with 82/82 Vitest test suite passing and full i18n support (EN, DE, AR).

Supper-Mind — Multilingual AI Wellness & Habit Analytics SaaS

React • TypeScript • Tailwind CSS • Zustand • Supabase • OpenAI

Engineered a comprehensive wellness tracking platform featuring mood analytics, AI wellness coaching, and interactive habit streaks. Built secure Supabase authentication, offline fallback resilience, and 17/17 automated test suites.

Fit-Zone — Enterprise Fitness & Subscription Platform

React • NestJS • Prisma ORM • PostgreSQL • Redis • Gemini AI

Developed a full-stack gym and wellness booking system with protected route access control, live class scheduling, and personalized AI workout recommendations. Hardened backend API endpoints with JWT guards and argon2 hashing.

Mangata & Gallo — Luxury Commerce Platform & AI Atelier

React • TypeScript • Express • Prisma • PostgreSQL • Tailwind CSS

Built a high-jewelry e-commerce application with dynamic carat calculators, real-time metal filtering, and an AI gift concierge. Eliminated authentication bypass vulnerabilities and established robust security headers.

Aether-Travel — Interactive Destination Exploration Platform

React • TypeScript • Vite • Tailwind CSS • Leaflet Maps • Zustand

Designed an interactive travel booking portal with interactive destination routing, itinerary planners, and responsive UI components backed by 18 integration tests.

EDUCATION & CREDENTIALS

Bachelor's Degree in Computer Science / Information Systems

Professional Full-Stack Web Development & Modern React Specialization

LANGUAGES & SOFT SKILLS

Languages: Arabic (Native), English (Professional Proficiency)

Soft Skills: Problem Solving, Agile Collaboration, UI/UX Design, Clean Code.
